## PIANOS

Prices Sharply Reduced

Styles in pianos change just about as often and as radically as styles in clothing. For instance, square pianos are no longer the style, though their action and tonal qualities may be all that can be desired.

For this reason we must at once clear our floors of a number of models which their makers have notified us are to be discontinued. Chances are you'll never know the difference between the new ones and these; there won't be a particle of difference in quality of tone—nevertheless they must go, and go quickly, for new styles are arriving all the time, and floor space is imperative.

So we've reduced prices, already reasonable, from 20 to 25 percent, on the makes you know best, and most want.

If you've decided to buy a piano, don't look any farther than here; if your mind is not made up, come in just to see the magnificent array of splendid instruments, one of which your next neighbor will probably be enjoying when it's too late for you to decide to buy.

**SECOND HAND SNAPS.**

Pianos that have been out on rental, those returned because they couldn't complete payments, or those exchanged for more expensive instruments, are on sale now at prices which bear no relation to values—look them over, and have one sent out, if you feel that you can't afford a new instrument.

### STAMP "SIG" MISCHIEVOUS.

Bond Money Paid Out With No Legal Authority.

Mayor's Name is Used Without His Knowledge.

Pickle for City's Executive and for Treasurer, Too.

Mayor McAleer and City Treasurer Workman yesterday afternoon discovered, to their mutual consternation, that the one has approved and the other paid demands on the bond fund aggregating more than \$100,000, in the face of an opinion from the City Attorney that the Council and the Mayor have lost jurisdiction over bond money.

Each demand bears the rubber stamp signature of the Finance Committee of the Council, the president of that body, and of Mayor McAleer; they are for material and labor on the outfall sewer and the storm drains.

Mathews said yesterday afternoon that he was not consulted as to the legality of these demands and that he was not aware that the Council was extending any more bond money.

City Treasurer Workman said that he received the demands duly approved from the City Auditor and that it never occurred to him that the Council cannot still spend the bond money just as it has during all the years he has been treasurer.

The cloud on the legality of the demands is occasioned by the public works amendment to the city charter. Under that amendment the board has sole jurisdiction over bond money.

"NOT MAYOR'S APPROVAL,"

The Mayor said that not one of the demands went to him for approval. He expressed surprise and indignation when told that his name is stamped to each demand.

"I queried the Auditor's office," he said, "that they were to use my stamp only on demands which are a part of the regular routine; all others they promised to bring me for personal inspection. I was not aware that the Council was expending bond money. I thought the opinion rendered by the City Attorney stopped all that."

"What am I going to do about it?" Well, for one thing, I shall tomorrow take that stamp from the Auditor's office. I shall insist that every demand come to me for personal inspection. It will remain here twenty-four hours a day, if necessary, before I will permit such a thing to happen a second time.

"Of course I did not consult the City Attorney about it. I did not know that it was being purchased by the City."

The Mayor made an effort to stop payment on the demands, only to discover that the last of them had passed through the treasury.

**TREASURER DIDN'T KNOW.**

"I didn't know that there was any question about the legality of those demands," said the City Treasurer. "They came to me approved by the Auditor and signed by the Mayor. It never occurred to me that the Council couldn't expend the money covered by contracts."

"I haven't paid out any of the Owens River money since the City Attorney raised this question. I thought it was the only fund affected."

"You may say for me that I will not pay out another dollar of bond money except under the direction of the City Attorney."

Demands on the bond fund for more than \$45,000 were allowed by the Council Monday. All the hundreds of dollars of this money has already been paid.

Each demand was on an estimate submitted by the City Engineer. They are as follows:

Stansbury & Powell	\$18,209
Western Fuel Company	11,322
Tryon & Brain	4,059
Hickox & Martin	3,469
Ramish & Marsh	2,745
Andrew Holloway	1,898
R. C. Lowell	1,731
Hall Construction Company	1,781
L. A. Pressed Brick Company	328
Simons Brick Company	327
Leiber	2,600

"I questioned in my own mind the jurisdiction of the Council over these demands at the time I presented the estimates," said the City Engineer yesterday. "But I was acting in accordance with the contract which requires that I must present monthly estimates to the Council. My responsibility stops there."

The above demands are the ones passed Monday only. During the month of January demands were allowed by the Council and paid by the Treasurer aggregating more than \$60,000.

**CITY ATTORNEY SAYS.**

"I was not aware that the Council was expending bond money," said the City Attorney, when questioned as to the legality of these demands. "I have never been consulted about them and this is the first that I have heard of the matter."

"I am not prepared to say that the expenditure of the bond money by the Council in payment of contracts made before January 1 is illegal."

"No, I wouldn't care to attest just now to its legality, either."

"Payment of money for labor or on new contracts is covered in my opinion to the Council."

This item alone amounts to about \$5000.

The labor consists of the inspection of the construction work on the sewers and storm drains. None of this is under contract. The City Attorney has advised the Auditor not to approve demands on the bond fund for the Owens River surveys.

City Auditor Schwabe signed each demand. He is the only official except the City Clerk, not represented by a rubber stamp.

The City Attorney says that it is not on his advice that the Auditor acted, that he never consulted the City Attorney's office.

**SOCIOLOGISTS AS INSPECTORS.**

The class in sociology, in charge of Rev. Dana W. Bartlett, visited the Soldiers Home, the Old Folks Home and the jails yesterday afternoon. In the evening the class of fifty students from Pomona, Occidental and U.S.C. attended a conference at the Bronson House. After the conference the newspapers of the city were visited.

### GABEL PROMOTED.

General Superintendent of Los Angeles-Pacific Becomes General Manager.

An important change was made in the Los Angeles-Pacific Railway Company yesterday. T. R. Gabel was promoted from the position of general superintendent to that of general manager of the rocky ill-advised.

The position of general manager was formerly held by E. P. Clark president of the road. The accumulation of business made the reorganization of the official roster a necessity, and the two positions are now held by two men, both of whom are efficient railroad officials.

By the promotion of Mr. Gabel the position of general superintendent was left vacant. Robert Sherman, son of Gen. Sherman, was appointed.

### AMAZING ACT OF PROSELYTES.

SCATTER ATTACK ON FAITH IN CATHOLIC CHURCHES.

"Ex-Monk" Sullivan Admits the Authorship of Tracts That Have Been Placed in Pews and Confessionals, but Declares That He Did Not Plan Such Distribution.

Overzealous work of would-be proselyters in the Roman Catholic churches of this city, and especially in the Cathedral of St. Vibiana, during the past week, has caused considerable discussion in church circles. Catholics are amazed at the brass of these persons, and Protestants have declared that their act was very ill-advised.

There has been a concerted movement to place in all the Los Angeles Roman Catholic churches, both in confessionals and in pews, literature which strongly attacks that faith.

Primarily, the man blamed for this invasion of the Catholic churches is Henry A. Sullivan, who styles himself an "ex-monk," and who is now an evangelist in the Church of Christ, with a mission located at No. 739 Kohler street.

Sullivan, the author of the proselyting tracts and circulars, but he claimed when interviewed, yesterday, that it was not by his advice that they had been placed in the Catholic confessionals and church pews; that they were ideas that he had conceived in the work of spreading his propaganda, and by them placed in the churches without his knowledge.

For two years, claims Sullivan, he was a member of the Catholic order, but that he did not aspire to the priesthood. He claims to have been a "teaching brother," at Notre Dame, and from there was sent to Chicago to teach in the St. Columbkil school. Later he returned to Notre Dame and demanded a release from his vows, and renounced allegiance to the Roman Catholic church.

For twelve years Sullivan has been an evangelist in the "Campbellite," or Christian church, and renounced allegiance to the church of Rome.

Six months ago he opened the mission on Kohler street, and he claims to have there received several converts from Catholicism into the church with which he is connected. Last night Evangelist Sullivan baptized by immersion six candidates in the baptismal of the Broadway Church of Christ.

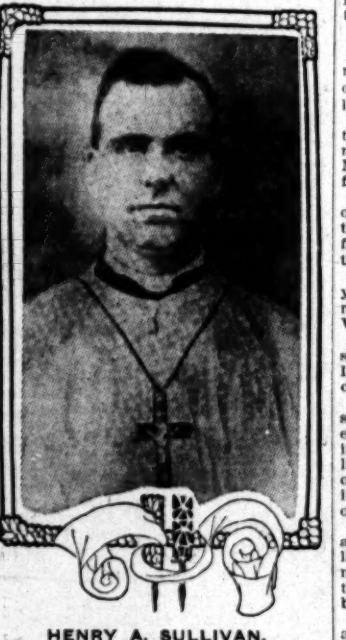

Speaking of the circulation of his writings in the Los Angeles Catholic churches, asking the bishop to investigate the matter, he said:

"When the word was brought to me that some persons were placing these tracts in the confessionals and pews of the Catholic churches, I asked them: 'I do not believe in that method of work. Of course, I am firmly convinced of the justness of my efforts to win Catholics to the Church of Christ, but I know this is a waste of ammunition, as well as raising a spirit of antagonism which is hard enough to combat on ordinary lines.'"

Naturally, the clergy of the Catholic churches here feel very much incensed because of the bitterness which cropped out from the churches with which he is connected. Last night Evangelist Sullivan baptized by immersion six candidates in the baptismal of the Broadway Church of Christ.

Speaking of the circulation of his writings in the Los Angeles Catholic churches, asking the bishop to investigate the matter, he said:

"When the word was brought to me that some persons were placing these tracts in the confessionals and pews of the Catholic churches, I asked them: 'I do not believe in that method of work. Of course, I am firmly convinced of the justness of my efforts to win Catholics to the Church of Christ, but I know this is a waste of ammunition, as well as raising a spirit of antagonism which is hard enough to combat on ordinary lines.'"

HENRY A. SULLIVAN.

### RECOVER BODY OF MRS. CHASE.

Corpse Found Floating in a Pond Near Her Home.

Difficulty in Removal of the Remains from Water.

The Result of Eighteen-Day Search Stuns Husband.

After a vain search for eighteen days, the dead body of Mrs. Walden Chase was found late yesterday afternoon in a deep rain pool almost in her own back yard.

The place had been dragged many times without success. Yesterday the corpse floated to the top.

It was discovered by C. A. Sumner, a real estate man. Walking near the edge of the pool about 5 o'clock, he noticed something white floating just beneath the surface of the dirty rain water.

He could see a woman's hair and a bit of a jacket or waist. Presuming a pitchfork, he gently towed the object toward shore, until it grounded in the tules and rubbish on the banks of the lake.

The police and coroner were then notified. Six or eight officers were quickly on the scene.

Friends of the family tactfully escorted Mr. Chase away, not letting him know of the discovery until after the horrible scenes of rescuing the body were over.

He was taken to the residence of his pastor, Rev. L. G. Morris of St. John's Church; where the body was gently broken to him there. Chase fainted. After the body had been taken away, it was returned to its home, Rev. Mr. Morris remaining with him.

No attempt was made to touch the remains until the undertakers arrived from Pierce Bros. The coroner having turned the case over to them.

**RECOVERING THE BODY.**

While the watchers waited the arrival of the dead wagon, darkness came on. The ghastly scenes that followed were by the light of a lantern.

Mr. Mendell, the brother-in-law of the dead woman, was called in to represent the family and identify Mrs. Chase. He was almost a wreck from nervous agitation.

The pool in which the woman was drowned was in the bottom of an extraordinary deep gravel pit. The surface of the water is thirty feet down the bank.

It runs from Shatto street for fifty yards; so that it lies directly in the rear of the Chase residence, No. 417 Wilmer street.

The banks run so steeply from the street that it makes almost a precipice. It was a terrible task to recover the corpse.

Two men from the dead wagon went sliding down the bank to the water's edge. They found they could do nothing in the darkness and called for a lantern. One held the light while the other could be seen reaching far out into the tules trying to drag the body out of the water.

Finally they had to appeal for help and a detective went down to hold the lantern while both men bent their muscles to dragging the corpse out of the water and placing it in the dead wagon.

The body had lain face downward, as was in "horrible" almost unrecognizable condition. Mrs. Chase was dressed in a pale or polka-dot waist and petticoat; long shoes. She was not dressed for the street, and must have gone directly out from the house to her death.

Her skirt had been pulled up about her head as though caught by some of the grappling instruments with which the pond had been dragged.

**IN THE DEEP TROUD.**

This pond, being just at the rear of the Chase back yard, naturally fell under suspicion from the very first. It has been dragged many times, both by police and amateur searchers.

One of the most determined efforts was made Sunday when a boat was secured from Westlake Park, and the lake was dragged with a rake. The rake was something over six feet long. The man who wielded it leaned far out and plunged his arm in up to the shoulder in an effort to reach the bottom, but failed to do so.

It is said that this lake is drained by a big pipe which carries the water off into another large puddle a few blocks away.

It is probable that the suction of this pipe drew the body to the bottom of the lake and kept it there so long out of reach of the grapplers.

After a strenuous effort the corpse was dragged to the brink of the incline and placed in the dead wagon. Mr. Mendell accompanied it to the morgue and identified the body as that of Mrs. Chase. It was not permitted to go to the undertakers.

**HER DISAPPEARANCE.**

Mrs. Chase disappeared from her home in Wilmer street on Saturday, January 20.

On that day Mrs. Chase, accompanied by her two children and a maid, spent several hours in Westlake Park. She had appeared to enjoy being out with her children, but for some time previous she had been oppressed with ill health she was a burden to her husband and that she ought to do something to relieve him of this care. She had at times expressed the belief that she ought to undertake teaching, or some occupation of this sort, and thus become a help to her husband. On the very day that she disappeared she had mentioned this, and the fact that she was a burden.

The mother, children and maid returned to their home from Westlake Park between 4 and 5 o'clock in the afternoon. An hour afterwards Mrs. Chase was missing from the home. Immediately search was made for her; but she never again was seen alive.

On the Sunday following her disappearance several ponds in the neighborhood were searched, and the lake at Westlake Park was dragged. A considerable section of Echo Park lake was dragged.

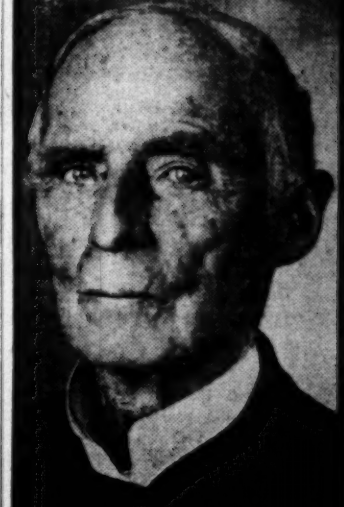

Mrs. Chase was a next-door neighbor of the Chases, undertook search, and for several days and nights devoted himself entirely to its prosecution, assisted by the almost distracted husband. Every possible clue was followed—to end with yesterday's pitiful disclosure.

**SAME OLD STORY.**

Fire last night caused a loss of \$150 to the home of Mrs. M. E. Metcalf, No. 1927 East Seventh street. The explosion of a gasoline stove is assigned as the cause of the bl.

### OLDEST JUSTICE'S NEWEST MILESTONE.

Eighty-six years old today is Justice of the Peace Gano Henry, of Burbank. This birthday probably scores him first for age of all the justices in the country.

JUSTICE GANO HENRY.

For twelve years he has been deciding the troubles of the Burbank people; the old justice is just entering on the last year of his third term. For twenty years or more he has been one of the prominent figures of the San Fernando Valley.

He is a vastly different figure from the usual "oldest inhabitant." He looks like some character stepped out of the dramas of our grandmothers' days—fragile, aristocratic old Southern gentleman.

His courtesy is stately; his manners are those of a nobleman. There is something fine and patrician about the old gentleman. That he should be judge of the village is as natural as that he should breathe.

You would almost know without his telling you that he is a relative of Patrick Henry. His great grandfather and Patrick Henry were brothers, having come over from Scotland together.

His grandfather was a soldier in the revolution and fought under Morgan. His father was Captain William Henry, who fought in the war of 1812, and was in the fight in which Tecumseh was killed.

When the Civil War broke out, some of Justice Henry's family went away, but he would not fight against his country, and stayed out of the struggle.

When a boy of 20 years he was elected sheriff of Christian county. The aged justice laughs yet over an incident of his career as sheriff, when bad handwriting saved him from a law suit.

As Sheriff he had to attach a rich farmer for his debts. Not feeling certain of some of the legal intricacies, he got a prominent lawyer of Lexington to make the necessary instruments of the papers, showing service, etc.

The lawyer's handwriting was so vile that the sheriff was unable to have the documents filed in the court. The farmer could never sue the sheriff as he afterward wished to. Justice Henry says they have been struggling for forty years to make out what that handwriting is supposed to be saying.

After he had grown to manhood, Henry became president of one of the first railroads in the country. It was called in those days the Henderson & Nashville, running across Kentucky for about 120 miles.

That was before the days of our own steel industries, and he had to go to Europe to buy the rails.

For many years the justice has been one of the moving figures of the real estate market in the San Fernando Valley; he has been the Burbank real estate agent for years, as well as the judge.

The jump in San Fernando realty will probably make him strong financially; his home place consists of seven lots on the best corner in Burbank.

All the railroads and lines of the whole valley have been heard before him. He hears civil suits between chicken owners and farmers and criminal charges against vagrants.

### LOOKS WARM FOR BARBOUR.

SENATIONAL FACTS LAID BEFORE DISTRICT ATTORNEY.

Probable That Warrant for Arrest of Missing Promoter Will Issue. Hundreds of Women Said to be Losers—Dramatic Scene in Office, Which is Now Closed.

Creditors of Henry P. Barbour are preparing to make things warm for the missing promoter. Sensational facts have been laid before the District Attorney, and there is a probability a warrant will issue for the arrest of the missing real estate promoter.

Scores of women who claim to have been duped, are on their trail. It is claimed that hundreds of women will be losers.

Closed as tight as an oyster were the offices of Barbour, in the O. T. Johnson building yesterday. Murray Mitchell, the manager who has apparently done all in his power to tide over the difficulty, has given up the task of hope.

He did not expect such a host of creditors.

Some of the heaviest losers were told how much they have sunk in swamp lands at Long Beach. One man, who is in to the extent of several thousand dollars, declared his losses are slight and said he will not prosecute Barbour. Another heavy loser said: "I'm out about six bits."

The upshot of the disturbance was that other members of the company heard the story. Barbour was taken on the carpet, the charges proved, it is said, and he was then deposed.

The case of Barbour has been taken under advisement at the office of the District Attorney. There is said to be evidence enough to make it more than interesting for the accused promoter, and he may be accused on a criminal charge. His whereabouts remain a profound mystery.

**DROPS DEAD.**

Barbara Briggs, a Los Angeles Woman, Suddenly Stricken Yesterday at Omaha.

Miss Barbara Briggs of Los Angeles dropped dead on the streets of Omaha yesterday. Heart failure was assigned by physicians as the cause. From papers found on the body the Coroner of Omaha believes Miss Briggs was wealthy. She had deeds to considerable property in this city and in Duluth and Minneapolis, Minn.

There is a mystery surrounding the sudden death of the unfortunate woman, who, besides having the valuable deeds in her possession, had receipts for a considerable amount of household goods said to be stored in a warehouse in this city. The dead woman has a brother in Antigo, Wis., who has been notified of her death.

### "SEATTLE, 1907."

Los Angeles Loses the Great Christian Endeavor Convention, but Congratulates the Winner.

Los Angeles has lost the great international Christian Endeavor convention, though strong efforts were made to bring it to this city in July, 1907.

Seattle won the prize at a meeting of the 100 trustees of the United Society of Christian Endeavor held in New York yesterday, and Los Angeles Endeavorers, immediately upon receiving notification of the result, telegraphed their congratulations to the northern city.

E. C. Lyon, chairman of the committee to make the fight for Los Angeles, late yesterday received the following telegram from William Shaw, secretary: "Seattle unanimous choice; great Northwest's turn; regrets."

The only other time that this great body of young people met on the Pacific Coast was in 1886, in San Francisco, and there was sentiment against coming again to California, so the Northwest easily won the day. There is no feeling of disappointment among the Los Angeles here, much as they would like to have been selected as the host, and with all their might they will take up the cry: "Seattle, 1907."

There is much satisfaction in the knowledge that thousands of the delegates will visit Los Angeles either coming or going, and efforts will be made to have them royally entertained.

**GRASS EXPERT RETURNS.**

Prof. Tracy of the Department of Agriculture to Resume Study of Fertilizing Crops.

Prof. S. M. Tracy, special agent of the United States Department of Agriculture, reached this city yesterday from Texas and is a guest at the Van Nuys. He spent some time in the last fall in an investigation of the various crops grown for cover and fertilization purposes in the citrus groves, and his present visit is for a continuation of the same line of work.

In discussing the subject last night he stated that citrus growers everywhere recognize the value and necessity of such crops, but there is a wide difference of opinion as to the best kind to be grown on different soils, the stage of growth at which they can be plowed under most profitably and the season during which they can be grown most profitably and to secure accurate information on these and other matters is the object of Prof. Tracy's present visit.

The growing of these "fertilizing" crops is increasing at a rapid rate in the entire citrus region of Southern California, the acreage this year being 25 per cent. greater than ever before, and the results of the investigation will be of great importance to all parts of the country.

Prof. Tracy states that as the section contiguous to Los Angeles is the most important citrus region in the country, the department will make its principal investigations here, and it is the intention to make the work very thorough. This is important for, as the cost of using chemical fertilizing material is from 40 to 50 cents per tree each year, and that equally good results are secured by the cultivation of these fertilizing crops, it is necessary that full and complete information on these crops be had.

It is the belief of the department that the intelligent use of the Canada pea, cow peas, vetches and like crops, will result in a saving of fully one-third the usual cost of fertilizers and also a big saving in the cost of cultivation. The action of the department will depend largely on the result of Prof. Tracy's investigation here.

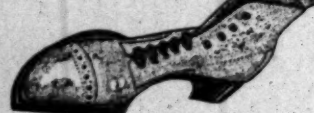

FINAL HONORS  
TO MINNESOTA.FUNERAL OF JOSEPH KNIGHT  
MOORE, VETERAN EDITOR.Many Attend the Last Rites for the  
Man Who Published Newspapers in the  
East and the Northwest and  
Who Held Numerous Responsible  
State and Federal Positions.Funeral services over the remains  
of Joseph K. Moore were held yester-  
day afternoon at the family residence,  
1011 Burlington avenue. A large  
company of friends attended.Mr. Moore had spent considerable  
time in California and had lived  
in Los Angeles since 1885. On January  
10, Mr. and Mrs. Moore celebrated their  
thirty-fifth wedding anniversary at the  
home. The affair was enjoyable and no  
doubt the health of Mr. Moore was  
restored to that time. He passed  
away Sunday night.Mr. Moore was a veteran newspaper

## Coulter Dry Goods Company

We want everybody to know that if any cloud of disappointment arises in dealing with us,  
the silver lining is there, too. We believe everything we sell to be worth every penny we  
ask. If it proves the contrary, if you don't like a thing after you get it home, or if it fails  
to give the proper service, you have the privilege of bringing it back, and having the matter  
righted.Individuality  
in Women's  
CoatsSome of the smartest  
separate coats it has ever  
been our good fortune to  
assemble for your ap-  
proval are these described  
today. Every garment is  
so carefully executed that  
it shows unmistakably,  
inside and out, high-class  
quality and perfect detail.Coat colors show a departure—  
plaids in more or less conspicuous  
effects being predominant, with hair  
line stripes a close second, and many  
solid colors in new shades; mostly in  
finely finished cloths.Mannish styles as to cloth and  
make are more pronounced than  
usual, and there is a free use of  
stitching on many coats, with bright-  
ening touches of color on collars and  
cuffs. Hear half a dozen descrip-  
tions:Light gray novelty plaid coat, with  
light green intermixed; semi-fitted  
coat; stitched collar and cuffs of  
green broadcloth; double breasted  
style, with six handsome gold but-  
tons; fifteen dollars.Three-quarter length coat of blue  
and gray check; light blue moire col-  
lar and cuffs; applied pockets and  
large ornamental gold buttons;  
twenty-five dollars.Three-quarter coat in large gray  
plaid; loose fitting; collar and cuffs  
of same; fly front, top and side pocket;  
seventeen-fifty.Cream gray striped suit, full box  
half-length coat; large full sleeves;  
stitched collar and cuffs of red broad-  
cloth; double breasted, with two side  
pockets; twelve-fifty.White Panama coat with black  
hair line stripe; collar and cuffs of  
applied rose moire; rose-and-gold  
buttons to match; fifteen dollars.Loose fitting three-quarter length  
coat in stylish cream gray mixture;  
breast and side pockets; thirteen-  
fifty.

DEATH'S HAZARD  
SAVES HAZARD?

---

Horrible Charge Against  
Him May Go Untried.

---

Son and Witnesses Reported  
Valencia Victims.

---

Said to Have Been Lost in  
Flight to North.

Has the Valencia steamship horror happened to save E. L. Hazard, of Los Angeles, from prosecution for an unsentimental crime against a young girl?

A startling rumor is to the effect that Hazard's alleged victim, Lulu Hayward, together with an older sister and a grown son of Hazard, slipped away to avoid the publicity of a trial, were among the more than a dozen victims of the Valencia disaster off the coast of British Columbia.

Color to this report was added yesterday when Hazard, who is out on bail, appeared before Judge Smith of the Superior Court and sought delay in the entering of his case for trial.

Hazard told the court that he was in receipt of a telegram from the British Columbia government to identify the body of a relative who lay dead. This relative is supposed to be Hazard's wife.

On the showing made, the case was continued for two weeks, and it was reported that Hazard would be in court tonight for the north.

Should it prove to be a fact that the Valencia was the cause of the death of Hazard's wife, it would be a plain case of manslaughter.

that the prosecution will be dropped, for, if it is true, there would be little if any evidence to present against the man.

**HORRIBLE TALE.**

A peculiarly horrible story was unfolded at the preliminary examination of Hazard, who is a real estate man, whose name is in appearance, although he is not, the father of the girl who has been so long mentioned.

It was charged that Hazard had not only despoiled Lulu Rowland, but also had seduced her into becoming his wife, who is above the age of consent.

The defendant was released on \$5000 bond, with the following sureties: John Stanbury and one Nolan, a dry-goods man.

The defendant, on bail, official assistance of his going and coming is supposed to cease. The State is guaranteed to prosecute the case.

Within the last few weeks it has been whispered around among certain persons interested that Lulu Rowland had been married to her father, and that she had returned to the city in company with Hazard. The inference was advanced that the girl had been forced to marry and was now being kept at the trial.

His destination was not mentioned. The bodies of the two girls were recovered in British Columbia and the suppression was that the trio had been taken to the States.

Two weeks ago the report that young Hazard and the two girls had gone to the Pacific and there had taken refuge in a life-raft, was given credence when the vessel was wrecked on the rocks of the northern coast.

It was not until yesterday, however, that Hazard, last night, together with the woman he advanced for delay, in the present consistent confirmation of the current report.

**PROSECUTION DOUBTS.**

Then Dist.-Atty. Fredericks was appointed to go to the States to try to confirm the story regarding the girls, and to see if they could be refused to sail with the Hazard and the woman.

He sarcastically conceded that it would be good, but that he didn't think it would be worth the trouble. He would need to link the Valenciennes with the charge that the local real estate agent had made at the same time Mr. Fredericks did that what Hazard had given as his name was not listed in marriage records, and that he was not acquainted with what people were saying about the facts regarding the disappearance of the girls. But in saying so much he paid tribute to the fact that the girls were not in the States.

[illegible]

member of Commerce yesterday declared that from him was read defining the situation and states that he is favorable to the plan and will use his efforts toward its realization.

"He says he feels that the Owens Valley is closely allied with the developments of Los Angeles, as well as the valley of the Colorado and the railway connections will go forward and the back country and fertile valleys of the grade as well brought into closer connection with the metropolis of Southern California."

At last meeting of the Board, Mueller was requested to introduce into the matter of the betterment of streets, and also some consideration is given to the consolidation of the city and county government. It was stated that in the opinion of the city officials, consolidation of the city and county government will be the only way by which this can be brought about. It requires concerted action of both city and county.

The speaker was attended to G. H. Cavanaugh, exalted ruler of G. O. U., who participated in a public reception at the Chamber of Commerce building on the evening of February 10, and his party will arrive here on the morning of the 11th.

Secretary was also instructed to prepare for a reception to be given to the United States Treasurer, Charles DuBois, on his return to the city next week.

A resolution was passed requesting Congressman McLaughlin to urge the passage of the Senate Bill providing for the sale of the old government buildings in Los Angeles.

The Board of Directors elected to the membership of the following: Charles W. H. Henshaw, A. J. DuBois and Davidson.

# DEATH'S HAND SAVES HAZARD?

Horrible Charge Against Him May Go Untried.

And Witnesses Reported Valencia Victims.

Had to Have Been Lost in Flight to North.

When the Valencia steamship horror happened to save E. L. Hazard, of Los Angeles, from prosecution for an unprovable crime against a young woman.

A startling rumor is to the effect that Hazard's alleged victim, Lulu Rowland, together with an older sister, appeared before Judge Smith in Superior Court and sought discharge to avoid testifying at the Valencia trial.

Among the Valencia victims of the coast of British Columbia, in this report was added yesterday when Hazard, who is out on bail, appeared before Judge Smith in Superior Court and sought discharge to avoid testifying at the Valencia trial.

By a telegram summoning him to the Valencia trial, Judge Smith ordered Hazard to identify the woman who lay dead. This is supposed to be Hazard's victim.

The showing made, the case was adjourned for two weeks, and it is understood that Hazard left on the Ojai to the north.

It is proved to be a fact that the witnesses against Hazard, who are his three sisters, will mean, if the prosecution will be allowed to proceed, that Lulu Rowland, together with an older sister, appeared before Judge Smith in Superior Court and sought discharge to avoid testifying at the Valencia trial.

# RHEUMATISM

I will refund your money if it fails.

MUNYON'S

Rheumatism cures pain in legs, arms, back, stiff or swollen joints, a few hours.

Positively cures in a few days. Contains no morphine or drug to dull the pain, but neutralizes the acid and drives out all rheumatic poison from the system.

GET DRUNK ON DYNAMITE.

STRANGE STORY TOLD OF HABIT ACQUIRED BY MEXICANS.

Are Alleged to Mix Deadly Explosive With Mescal, Which Has the Effect of Hasheesh as a Dream-Producer—Habit Spreads Fast in Mining Camps.

A special dispatch to the Denver News from Monterey, Mex., says: "An American businessman of this city who was on a visit a few days ago to a mining camp situated near here, was surprised and mystified to hear one Mexican miner say to his companions as they came from the depths of a mine:

"Come over to the cantina tonight and take some dynamite with me."

"The American superintendent explained the invitation:

"That was not an invitation to take a drink of some new brand of liquor, as might be supposed, but to take some dynamite with me."

"It is a fact that many of the Mexican miners of the peon class are dynamite eaters. It is a vice that is rapidly spreading to all of the mining camps in Mexico. J. C. Ford, a prominent American mining man of the Guadalupe y Calvo district, said concerning this new habit:

"The effects of dynamite soon learn that it is a powerful stimulant, and that the effects of intoxication are pleasing while they last beyond the most exulting phantasies of an opium dream. Dynamite is manufactured for the purpose of smashing things, and a tiny bit of it coursing through the veins smashes the whole end out of care and blazes dullness into atoms."

"The dynamite," usually is very delicate and exact in its method of going into the system. The preferred way to do this is to cut off a small piece of 55 per cent. "dyna," about the size of a pea. This is dissolved in a small glass of mescal or tequila, and the draught is quaffed down with a gusto that comes from the pleasant anticipation of the performance of this trick then rolls in his blanket and stretches himself at length in the arms of his companion. It is said that his nerves begin to tingle and stranger dreams come to him than the weird imaginations of the mad.

"The amount of dynamite consumed at an ordinary camp by those addicted to taking it into their systems in the above way described is so large that it appreciably affects the quantity of that explosive required to carry on the regular work. There is a large and increasing number of people addicted to a vice that only the most imaginative of the northern coast may not be assuming too much to state that eventually dynamite will be dispensed at saloons as much as are tobacco and alcoholic drinks, and that the "dynamiteur" will be as distinct a class as the abstemious or ordinary boozier."

TO BUILD MONSTER SMELTER.

Guggenheims Representatives Planning Large Customs Smelter Near San Francisco Bay.

The smelter trust is so well convinced that the world's supply of copper is falling behind the demand that it has decided to erect, on San Francisco Bay, perhaps at Port Costa, the largest customs smelter in the world, says the San Francisco Chronicle.

There are present in the city a number of the Guggenheim smelter men, who have been conferring with regard to the best point at which to locate the works, which are to be of the most approved construction and capable of handling not less than 1000 tons of ores a day. W. R. Rust, general manager of the Tacoma smelter, and Edward L. Newhouse, general manager of the American Smelting and Refining Company, are at the St. Francis, and they had a conference today with the local manager of the trust. The plans for the contemplated new smelter are agreed on and, with the exception of some details, the trust is prepared to go ahead with its construction.

The Guggenheims and stockholders last year effected a huge combination, with a capital of \$77,000,000, to control the smelter business of the country, and purchased the Selby smelter, the Tacoma smelter, the smelter at Spokane, the one at Everett, Wash., and the Marysville (B. C.) smelter last April. The trust also picked up practically all the other independent smelting and refining plants in the country, thus absolutely controlling the situation. It bought two smelters building in Mexico, and absorbed the \$2,000,000 smelter under construction at the time, near Salt Lake City.

The officials of the Guggenheim trust are exceedingly reticent concerning the plans for a new smelter, one of them declaring that nothing would be done in regard to the new plant, while others declined to be interviewed at all. None of them denied that it was intended to erect a big smelter on the bay shore at some point, hereafter to be announced.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

## UGLY MEXICAN'S VICIOUS ATTACK.

### NEWPORT BEACH WOMAN ASSAULTED ON THE STREET.

He Beats Her Over the Head and Shoulders and Only Desists When Men Come to Her Rescue—No Trace of the Assailant Yet Discovered—Officers on Trail.

SANTA ANA, Feb. 7.—Mrs. Frances Ortega of Newport Beach is suffering severely from injuries received last night at the hands of a Mexican, said to be one Delgado. She was attacked by the man about 10:30 o'clock, and was so seriously beaten about the head and shoulders that she had to be carried to her home and placed under a physician's care.

She was on her way home when he approached and it is alleged, began striking her on the head with his fists. He desisted when he was frightened away by men coming to his victim's aid.

Deputy Sheriff Lacy and Constable Smithwick were summoned from here last night, arriving at the beach shortly after midnight, but they could not find the woman's assailant. Today Constable Smithwick renewed the search.

WHERE THE FIND? Persistent rumor is abroad today to the effect that the find of coin, reported some days ago as being made by a local contractor, was made by George W. Smith, a sewer contractor. It is said that it was found in the excavation being made for the foundations of the new Methodist South Church on the corner of West and Church streets. The amount is reported to be \$25,000. Smith refused to confirm or deny the report. If the find was really made, the old question again comes up, where did it come from? It is said to have been found tied up in a sack.

SANTA ANA HAPPENINGS. Prof. E. M. Nealley of Tuslin presented the second of a series of papers on Socialism before the Men's Talk-Over Club of the First Congregational Church last night.

The Art Study Club met yesterday evening with a lecture on the North Main street and discussed Gothic architecture as shown in the cathedrals of England, Ireland and Scotland.

Miss Margaret Dolan and John Bouett, both of Los Angeles, were married here last night at the home of Rev. T. C. Miller on Spurgeon street. The Santa Ana Woman's Club celebrated the sixth anniversary of its organization today with a social afternoon at the home of Mrs. Anna Gale. Souvenir recipe books, with burnish-cream ornaments, were distributed.

A special train carried Eagles of the local Aerie to Corona last night to assist in the inauguration of a lodge at that place. Santa Ana's degree team assisted in the initiation ceremonies.

The Baraca and Delta Alpha Bible classes of the First Methodist Church were entertained last night at the church parlors with a chicken dinner, won in a contest for new members for the school. A series of clever toasts followed the feast.

## FULLERTON NOW A SUBSTATION.

### MAIN DISTRIBUTING POINT FOR A LARGE SECTION.

Voltage from Puente to Orange County Will be Increased from 10,000 to 33,000—Large Poles to be Placed for Distance of Fifteen Miles.

FULLERTON, Feb. 7.—The Edison Electric Company has decided to make Fullerton its substation for Orange county and a portion of Los Angeles county. Fullerton will be the main distributing point for all sections served with power and electricity south of Los Angeles. Heretofore the substation for Orange county and Fullerton has been on the main transmitting line at Puente station.

At present the transmitting wire from Puente to Orange county carries only 10,000 volts, but as soon as the new pole line can be completed the voltage will be increased to 33,000. At the new Fullerton substation this will be stepped down to 10,000 volts, and the juice will be distributed to Santa Ana, Orange, Anaheim, Whittier and all power stations in this section.

Forty-five-foot poles are to be used in the new line between here and Puente, a distance of fifteen miles.

Three new transformers valued at \$1500 each, will be installed in the Fullerton station as soon as a building can be erected on the property here. Machinery will be kept on duty here day and night and Fullerton will also be the main distributing point for all work in Orange county.

In the new building there will be a large room for the transformers, a workshop and room for the men who play, and back of the building will be a pole yard. The work will all be completed in two months and then Fullerton is promised much brighter light than this city is getting now.

Three carloads of poles were brought in yesterday to be used on the new fifteen-mile pole line.

## ANAHEIM.

### PROTEST AGAINST POSTMASTER.

ANAHEIM, Feb. 7.—A private message from Washington says that a number of the leading business men of Anaheim have telegraphed to President Roosevelt protesting against the recommendation of Duckworth for postmaster, stating that more than three-fourths of the patrons of the office are in favor of retaining the incumbent, Littlefield.

Ridde Booge and Miss Myrtle Lovell, two of the best-known young people in this portion of the county, were married at the home of the bride's parents on Orangehorpe avenue yesterday afternoon. They will reside in Fullerton.

## LIFE PRISONER SEEKS LENIENCY.

### CONVICTED SLAYER OF SAN DIEGO FILES PETITION.

Twice Convicted of Murder in the First Degree, He Secures a Change of Venue from San Bernardino to San Diego—Isn't Fond of Long Sentence Hanging Over Him.

SAN BERNARDINO, Feb. 7.—[Exclusive Dispatch.] J. J. Bush, convicted here in June, 1886, of murder in the second degree, and committed to Julian, San Diego county, for having shot John Ivy, a survivor, during a quarrel over a strip of road which Ivy was surveying, served notice on Dist. Atty. Sprecher today that he would, within ten days, petition the Governor for a commutation from life sentence. Bush was twice convicted of murder in the first degree at San Diego, the Supreme Court reversing the lower court's decision denying him a new trial. The last reversal granted a change of venue to this county.

The matter of Bush's petition for leniency has been referred to the San Diego authorities.

## URGING PROHIBITION.

The Anti-Saloon League of this county met in convention in the Presbyterian Church today and engaged actively in county politics by adopting a resolution endorsing Sheriff J. C. Ralph for his active work enforcing the anti-liquor laws, and urging upon justices of the peace and prosecuting attorneys the necessity of vigorous prosecution of offenders and the imposing of heavy fines. The league elects officers as follows: President, Rev. W. F. Ferguson of Redlands; first vice-president, J. F. Wallin of Colton; second vice-president, H. H. Ham of San Bernardino; third vice-president, J. P. Draper of Ontario; secretary and treasurer, James Crutcheff of San Bernardino; Executive Committee, S. D. Thorne, R. E. Larkin, Dr. Burke, D. Roberts and E. S. Libby.

## FIND MYSTERIOUS HOLE.

George Osborn and Phillip Gray, prospectors, believe they have found the "bottomless" pit. In the Dry Lake mining district, as near as they could judge, they report to have come across what they first supposed was an abandoned mining shaft in a narrow defile among the mountains.

The prospectors have built a suspension ladder into the hole for a distance of 200 feet and intend to go down in the hope of learning the secret which lies at the bottom of the hole.

The aperture cuts a ledge of low-grade ore at 150 feet, and at 200 feet is in a granite formation, which by the aid of the lantern is found to extend for probably 300 feet in a small average of gold and copper.

A rock was dropped into the black depths to ascertain the distance to the bottom, but though the men waited several minutes, no echo came from below, except the occasional sound of the rock striking the sides of the shaft. Rather alarmed at the mystery which they had found, they prepared to lower a line into the depth.

A week they had secured 1200 feet of line and wire and lowered a lantern into the hole. This, however, was not of sufficient length to reach the bottom, but it disclosed the probable fact that the opening was not the work of miners, for the hole was of varying width as it descended.

SAN BERNARDINO BREEZES. Mrs. Carrie Secombe has petitioned the court to allow her mother, Mrs. Rhoda Richardson, to adopt her minor daughter, Mary C. Secombe. This is the echo from a divorce case at San Quentin for house-breaking.

Coroner Pittman, and other members of the Southern California Association, in session here today, held an inquest upon the remains of Mrs. Phoebe Moon, a housewife who is alleged to have died without the aid of a physician and under the prayers of Dr. Carter, a Christian Scientist.

## VOTERS HOLD MASS MEETING.

### EAST RIVERSIDE PEOPLE NOMINATE FOR TRUSTEES.

Much Comment Created, as Rumor Has It That Prominent Business Men Desire Re-election of the Present Board—Power Plant Lease a Considered Factor.

(BY DIRECT WIRE TO THE TIMES.)

RIVERSIDE, Feb. 7.—[Exclusive Dispatch.] In a well-attended mass meeting the voters of East Riverside tonight nominated H. O. Reed and C. D. Helmer for City Trustees. The local election will be held April 9. The board consists of five members, three of whom must stand for reelection in the spring. The East Side desires two of these trustees. This demand is arousing much comment in political circles as there is said to be a movement on foot among prominent business men to reject all of the present Board of Trustees on the ground that the contemplated lease of the Riverside power plant for twenty-five years could be better managed at first by the men who made the deal.

In opposition to this the East Side voters came squarely to the front and opposed the lease. Some of the leading politicians and business men here say that as the East Side has not more than 25 per cent. of the population they are not entitled to 40 per cent. of the representation on the City Board. The East Side men, however, are in earnest.

Twice Convicted of Murder in the First Degree, He Secures a Change of Venue from San Bernardino to San Diego—Isn't Fond of Long Sentence Hanging Over Him.

SAN BERNARDINO, Feb. 7.—[Exclusive Dispatch.] J. J. Bush, convicted here in June, 1886, of murder in the second degree, and committed to Julian, San Diego county, for having shot John Ivy, a survivor, during a quarrel over a strip of road which Ivy was surveying, served notice on Dist. Atty. Sprecher today that he would, within ten days, petition the Governor for a commutation from life sentence. Bush was twice convicted of murder in the first degree at San Diego, the Supreme Court reversing the lower court's decision denying him a new trial. The last reversal granted a change of venue to this county.

The matter of Bush's petition for leniency has been referred to the San Diego authorities.

## URGING PROHIBITION.

The Anti-Saloon League of this county met in convention in the Presbyterian Church today and engaged actively in county politics by adopting a resolution endorsing Sheriff J. C. Ralph for his active work enforcing the anti-liquor laws, and urging upon justices of the peace and prosecuting attorneys the necessity of vigorous prosecution of offenders and the imposing of heavy fines. The league elects officers as follows: President, Rev. W. F. Ferguson of Redlands; first vice-president, J. F. Wallin of Colton; second vice-president, H. H. Ham of San Bernardino; third vice-president, J. P. Draper of Ontario; secretary and treasurer, James Crutcheff of San Bernardino; Executive Committee, S. D. Thorne, R. E. Larkin, Dr. Burke, D. Roberts and E. S. Libby.

## FIND MYSTERIOUS HOLE.

George Osborn and Phillip Gray, prospectors, believe they have found the "bottomless" pit. In the Dry Lake mining district, as near as they could judge, they report to have come across what they first supposed was an abandoned mining shaft in a narrow defile among the mountains.

The prospectors have built a suspension ladder into the hole for a distance of 200 feet and intend to go down in the hope of learning the secret which lies at the bottom of the hole.

The aperture cuts a ledge of low-grade ore at 150 feet, and at 200 feet is in a granite formation, which by the aid of the lantern is found to extend for probably 300 feet in a small average of gold and copper.

A rock was dropped into the black depths to ascertain the distance to the bottom, but though the men waited several minutes, no echo came from below, except the occasional sound of the rock striking the sides of the shaft. Rather alarmed at the mystery which they had found, they prepared to lower a line into the depth.

A week they had secured 1200 feet of line and wire and lowered a lantern into the hole. This, however, was not of sufficient length to reach the bottom, but it disclosed the probable fact that the opening was not the work of miners, for the hole was of varying width as it descended.

SAN BERNARDINO BREEZES. Mrs. Carrie Secombe has petitioned the court to allow her mother, Mrs. Rhoda Richardson, to adopt her minor daughter, Mary C. Secombe. This is the echo from a divorce case at San Quentin for house-breaking.

Coroner Pittman, and other members of the Southern California Association, in session here today, held an inquest upon the remains of Mrs. Phoebe Moon, a housewife who is alleged to have died without the aid of a physician and under the prayers of Dr. Carter, a Christian Scientist.

## VOTERS HOLD MASS MEETING.

### EAST RIVERSIDE PEOPLE NOMINATE FOR TRUSTEES.

Much Comment Created, as Rumor Has It That Prominent Business Men Desire Re-election of the Present Board—Power Plant Lease a Considered Factor.

(BY DIRECT WIRE TO THE TIMES.)

RIVERSIDE, Feb. 7.—[Exclusive Dispatch.] In a well-attended mass meeting the voters of East Riverside tonight nominated H. O. Reed and C. D. Helmer for City Trustees. The local election will be held April 9. The board consists of five members, three of whom must stand for reelection in the spring. The East Side desires two of these trustees. This demand is arousing much comment in political circles as there is said to be a movement on foot among prominent business men to reject all of the present Board of Trustees on the ground that the contemplated lease of the Riverside power plant for twenty-five years could be better managed at first by the men who made the deal.

In opposition to this the East Side voters came squarely to the front and opposed the lease. Some of the leading politicians and business men here say that as the East Side has not more than 25 per cent. of the population they are not entitled to 40 per cent. of the representation on the City Board. The East Side men, however, are in earnest.

## HOPE FOR MEN

To Men Who Are Suffering from Nervous Debility Here is Hope for You

IT IS WRONG FOR you to suffer from you know that other men are being cured. It is wrong for you to delay when you know that your best years are slipping by. It is wrong for you to be what you are, when by being a man among men you can bring happiness not only to yourself but to those who love you. I am curing men like you every day with my Electric treatment. Why don't you do as they have done?

Do you notice in all my letters from my patients an evidence of gratitude for the cure that I have taken of them? I treasure that feeling. My patients are my friends. Do you will you if you will try my cure. Come and see me, and let me advise you free, or send this ad. for my book about it, sealed free, by mail.

FOUR VERY TRULY,

BRIDGE LINK IN PASADENA ROAD.

ARTISTIC STRUCTURE TO SPAN TRACKS NEAR RAYMOND.

Five Spans in Length and Built of Reinforced Concrete. It Will be an Attractive and Useful Feature of the Drive from Los Angeles to the Crown of the Valley.

Within three months a graceful bridge of reinforced concrete will become one of the notable landmarks on the route to Pasadena, both by Santa Fe and Salt Lake railroads and public thoroughfare.

This bridge will span from Fair Oaks

Handsome bridge that is to form link in Los Angeles-Pasadena road.

avenue, at the foot of the Raymond Hill, overlooking the famous Raymond Hotel, over the two railroads, the old cycleway, and a private road. The farther end of the bridge will rest on land in the Oak Lawn tract, opening on what is now a private road which leads up to Columbia street.

Its promoters claim that it is destined to become one of the most popular passageways in the Pasadena district at his home on First street early Sunday morning, occurred from his residence this morning, services being conducted by the Rev. Alfred Fletcher, rector of Holy Trinity. He leaves a widow, having been married but five years, and a native of England.

Grand naval balls at Coronado.

GRANT REQUEST OF LIEUT. MINER.

SAN PEDRO TRUSTEES VOTE ON IT THREE TO FIVE.

Another Application Presented by Company Recently Incorporated, but After Giving a Representative of That Concern a Hearing Board Acts in Favor of Former One.

SAN PEDRO, Feb. 7.—The Pacific and Gulf Terminal Railway Company was represented last night before the Board of City Trustees by Attorney Wellington Clark, of Los Angeles, and requested a railroad franchise over certain streets of the city and extending into the outer harbor.

This company was incorporated in Sacramento, yesterday, by M. E. Rives, John R. Crawford, Charles T. Crawford, D. A. Sutherland and Sylvan J. Lazarus, with a capital stock of \$1,500,000, of which \$25,000 has been subscribed.

While the incorporators of the company are unknown here, it is unofficially stated that Sylvan J. Lazarus is a stockholder in the Independent Steamship Company in opposition to the Pacific Coast Steamship Company. This report could not be verified.

Attorney Clark stated to the board that the people he represents have no connection with any corporation which now enters San Pedro.

The franchise asked for tonight begins at the north city limits, extends over Gaffey street to Fifteenth, Fifteenth to Signal, down Signal to the water's edge, and out to the fifth-fathom curve, having a width in the ocean of 200 feet. The life of the franchise asked for is to be fifty years, and is to be a part and extension of a line of railroad to be constructed and operated between San Pedro and Los Angeles and elsewhere.

It requires that work upon the proposed railroad shall begin within six months and be completed within three years.

The franchise asked for by the Pacific and Gulf Terminal Railway Company is in the outer harbor for terminal, warehouse, commercial and industrial purposes and construct a bulkhead, reserving for the people a strip 1000 feet long and 200 feet in width. In connection with these improvements, Lieut. Miner asked that the city grant to him and his associates a quit-claim deed to the territory in question, together with a lease for fifty years. The deed and lease are to be placed in escrow until Lieut. Miner has complied with the terms of the agreement. Work is to be commenced within ninety days and completed within five years.

After some consideration the application of the Pacific and Gulf Terminal Railroad Company was laid over for two weeks. Attorney Dennis Peck to lay over Lieut. Miner's application for two weeks. Attorney Dennis Peck strongly against delay, stating that any railroad company could not before the trustees and get a franchise over the streets included in the concession. He earnestly requested definite action at once.

Senator W. H. Savage, representing the Citizens' Committee appointed by a mass meeting, warmly urged prompt action, pointing out that the granting of the concession asked for by Lieut. Miner would in no way interfere with the entrance of any other railroad into San Pedro, and that the sentiment of all the business interests and all organizations within the city is a unit in favor of granting the concession.

The request of Lieut. Miner was granted on motion of Trustee Tilton, seconded by Martin. Trustee Tilton, Martin and President Weir voted in favor of granting the request and Trustee Peck and Mahar voted against it.

GLENDALDE TAKES ON CITY CLOTHES.

INCORPORATES AS CITY OF THE SIXTH CLASS.

Will Complete Regime of Newly-Elected City Officials, and Metropolitan Manners, She Dons Robes of a Municipality and Prepares for Future Progress—List of Officers.

GLENDALDE, Feb. 7.—By a vote of 75 to 41, Glendale today decided to incorporate as a city of the sixth class. Altogether 120 votes were cast, but four were thrown out as illegal, leaving 116. At the same election the following were chosen to office under the new administration: George P. Woodbury, City Clerk; John C. Sherer, City Treasurer; O. C. Patterson, City Marshal.

The trustees elected were: J. A. Sausel, George W. Noyse, Thomas W. Watson, Wilmet Parcher, James C. Jennings.

Pacific squadron now at Coronado.

PLAYA DEL REY.

HIGH TIDE—SLICEST DAMAGE.

PLAYA DEL REY, Feb. 7.—The tide was high this morning, the breakers rolling upon the shore with considerable force. A stiff breeze blew, but no injury was done to the beach, though a section of about thirty feet was torn from the end of the pleasure pier and hurled upon the sand. The pier was not very firm at the ocean end, as no re-erecting had been made to it since the storm of last spring wrecked the structure.

Golf at Coronado all week.

SANTA MONICA.

CHANGE IN MAIL CAR.

SANTA MONICA, Feb. 7.—A change is contemplated in the railway mail service on the Los Angeles-Pasadena electric line whereby the mail car that now starts daily from the beach in the morning will make the first start from Los Angeles. The proposed plan is for this car to make two round trips daily, except Sunday, leaving Los Angeles at 7:30 a. m. and 7:30 p. m., and arriving at Santa Monica at 11:25 a. m. and 6:45 p. m.

This proposed change is quite important, as it concerns Ivanhoe, Colegrove, Sherman, Sawtelle, Soldiers' Home, Santa Monica, Ocean Park, Venice, Playa del Rey, Hermosa and Redondo.

For the principal cities the service of the mail car will be supplemented by at least two closed coach services each way daily, as at present, except that the time of arrival and departure of the mails will be changed to conform to the new schedule of the mail car.

Golf at Coronado all week.

OCEAN PARK.

CAN'T PEDDLE PEANUTS.

OCEAN PARK, Feb. 7.—The policy of the City Trustees is to give preference to the permanent dealers who pay rent and have a license, hence permits have been refused to applicants for peanut wagons, lunch carts, root-beer depots and ice-cream stands. The applications were from persons who proposed plying their trades on the highways and byways.

OCEAN PARK NOTES.

The date for the next bond election has been fixed for March 2. Pier avenue and Ocean front boulevard.

For Breakfast Luncheon or Tea

A few small biscuits easily made with Royal Baking Powder. Make them small—as small round as a napkin ring. Mix and bake just before the meal. Serve hot.

Nothing better for a light dessert than these little hot biscuits with butter and honey, marmalade or jam.

You must use Royal Baking Powder to get them right.
